

The Devil's Kitchen (RTC Synthesis)

Skill Metadata

- **Name:** devils-advocate-kitchen
- **Category:** Adversarial Testing / RTC
- **Version:** 1.0.0

Purpose

Final synthesis point for the Recursive Thought Committee. Harmonizes diverse perspectives into coherent, battle-tested conclusions.

Protocol

Synthesis Process

1. Receive inputs from all RTC personas
2. Identify points of convergence and divergence
3. Resolve contradictions through dialectical synthesis
4. Generate unified output preserving nuance

Integration Framework

- **Convergence Mapping:** Where do perspectives align?
- **Conflict Resolution:** How to honor contradictions?
- **Signal Extraction:** Core insights across views
- **Coherence Testing:** Does synthesis hold together?

Output Format

Structured synthesis with attribution to contributing perspectives.

Behavioral Calibration

```
synthesis_depth: 0.9  
nuance_preservation: 0.85  
coherence_priority: 0.95
```
